

Mt. Rose Community Garden Season Kick-off:

When? April 27, 2019 from 1-4pm

Where? 1440 Mt Rose Park, right next to Stylin' Strings

Meet and greet your neighbors and join the crew at Mt. Rose Community Garden to support a new year of gardening and growth in Spring Garden Township!

Currently, we have 5 (free) plots up for grabs. We provide the water source for those that want to tend to their own bed, and we also offer aid with watering and maintenance for those who can't get to the garden regularly (although we do encourage a hands-on commitment). We will be growing in the unclaimed beds and donating food to local ministries, organizations, and families in need/want. Our goal this year is to collaborate with some other folks to offer outreach events downtown providing food for those in need using the food we grow.

Harvest dates are once a week. Produce will be placed on the market table outside of our house or right beside the garden beds. Make sure to check social media for updates on fresh produce, and follow along at our Facebook and Instagram pages, *MountRoseCommunityGarden* for FB, or *@mountrosecommunitygarden* for IG. We will be posting regularly.

- For more information on this event, or how to start your own garden, please contact Lindsey Dohm: l9.chambers@gmail.com or 928-713-4929.

Thank you to the Mt. Rose Garden Crew for your time and commitment to keep the gardens growing each year!
