Instructions for Zoning Permit Application

1. No work of any kind, including excavation or demolition, may commence until a permit has first been issued by Spring Garden Township.
2. Before filing the application, all applicable Township Ordinances should be consulted as to permissible uses, set-back requirements, height and size limitations, parking, signage, fencing requirements, impervious lot coverage, stormwater requirements, building construction specifications, etc.
3. The application will be deemed incomplete unless the **site plan** is provided, and all information requested is fully furnished.
4. Before commencing any work under a permit, the applicant is required to check all lot lines, street right-of-way lines, and easements, and to strictly comply with the details set forth in the application. Any error made during construction will be required to be removed and corrected at the cost of the applicant.
 - a. **Commencing work without securing a permit compromises your building construction (it may need to be removed)**
 - b. **No construction or placement of buildings, fences, sheds, etc. or planting vegetation (other than lawn grass) in an easement or right-of-way (stormwater, sanitary sewer, etc.)**
5. The duty is upon the applicant, not upon the Township, to prepare and file the application, and to strictly comply with all Township requirements. The Zoning Officer will provide you with the Zoning Officer's interpretation of Township codes and ordinances and is not permitted to prepare and file the application or plot plans. You have the right to seek the services of a construction contractor, professional engineer, or attorney regarding your building project or permit application.
